

**Questions Generated from the Columbus Closure Project (CCP), Group 3 (May 27, 2003 – June 10, 2003)**

48. If bidder wishes to hire an individual who has previously signed a “General Release and Waiver Agreement”, issued by a DOE-OFO contractor, will DOE consider authorizing us to deploy this individual on the Columbus Closure Project upon award?

Answer: For purposes of proposing Key Resources, DOE will not accept an individual who has signed a General Release and Waiver agreement that is still in effect, or who has other employment restrictions. Reference RFP Section M.1(d).

49. I wanted to inquire as to how many people from each company could attend the Pre-Proposal Conference scheduled to take place on 6/13/03. Please advise as to how we sign up our folks.

Answer: Two per company as stated in Section L of the RFP. See the SEB Web Page for instructions regarding registration.

50. Has there been a delay in the posting of the RFP for the Columbus Closure Project? If so, when do you anticipate its release date?

Answer: The RFP was posted June 5, 2003.

51. Just wondering what your new date for the RFP and the proposal are.

Answer: The RFP was posted June 5, 2003. Proposals are due July 18, 2003.

52. The link for directions for the pre-proposal conference say it will be held June 13 at Miamisburg, OH, but the directions show how to travel to the West Jefferson site. Where will the meeting be held and is it still scheduled for 6/13 with the delay in issue of the RFP?

Answer: Yes. The Pre-proposal Conference will be held June 13, 2003 in Miamisburg. Directions have been corrected on the SEB Web Page.

53. I would like to request that a copy of Sol. No. DE-RP24-04OH20171, Columbus Closure Project be sent to .....

Answer: The solicitation can be downloaded from the Ohio Field Office Web page which has a link to the Columbus Closure Project Solicitation. The address is [www.ohio.doe.gov/](http://www.ohio.doe.gov/).

54. Where on the CCP web site is the spreadsheet “lowman” located?

Answer: The spreadsheet has already been posted to the SEB website under Reference Documents, Categories of Information, Category 3, Item #31, Title “Low Level and Mixed Waste Volumes.” Now that the RFP has been issued, offerors are reminded the terms,

conditions and other information provided in the RFP take precedence over any other information provided.

55. Please provide information on procedures for obtaining one set of the facilities, buildings and utilities construction drawings as soon as practical, to begin work on the estimate.

Answer: A Reading Room has been established at the Columbus site. The access protocol has been added to the SEB Web Page. Drawings are available for review in the Reading Room.

56. Please identify the members of the SEB, the selection official, and advisors to the board. This may make OCI mitigation issues more straightforward.

Answer: Robert F. Warther has been delegated as the Source Selection Official for this procurement. Members of the board will not be identified. It is not appropriate to contact anyone other than the Contracting Officer during the procurement process. Organizational Conflicts of Interest are addressed in FAR 9.5. Procurement integrity restrictions, including proper conduct of offerors and Government Officials, are addressed in FAR 3.104.

57. On the CCP Web Page, in the following subcategory, is a file that we would like to obtain.

- Topical Information
- Technical Links
- Facilities
- Utility map/drawing on JN-1 3MB – Posted 5/13/03 (file name JNutilities.pdf)

Is it possible to obtain this file (Jnutilities.pdf) in it's original format (i.e. AutoCAD, or equal)?

Answer: No, this file is only available in PDF format.

58. Please verify if the OEPA has jurisdiction over the site.

Answer: The CCP is an NRC-regulated site. However, Ohio EPA's role is as set forth in the RFP.

59. In the original document "Technical Assistance Request, Columbus Closure Project CCP 02-02-01", "Independent Review of Stabilization of Contaminated Surfaces and Demolition of Building JN-1", in Section 3-Scope, the document says that the Technical Team will be "provided with background information concerning the problems being addressed and the presently proposed technical solution prior to arrival at the site". How can I get this information? Can it be accessed electronically or sent to me electronically?

Answer: The referenced Technical Assistance Request was not forwarded for funding. No background information was prepared for this request. Information on current Technical Assistance Requests will be added to the SEB Web Page. If any background information packages are developed for future Technical Assistance Requests, they will be posted on the SEB Web Page. Additional information may be available at [www.cemp.doe.gov](http://www.cemp.doe.gov).
